

POP UP WINDBREAK (3 PANEL) MP9573 USER GUIDE

Please read this user guide before attempting to set up your windbreak. Follow the user guide carefully and keep for future reference.

A copy of the user guide is also available on our website www.maypoleltd.com

POP UP WINDBREAK (3 PANEL) MP9573 USER GUIDE

WARNING – GENERAL SAFETY

- Not to be used in strong winds and extreme weather conditions.

CARE OF YOUR WINDBREAK

- Allow material to dry completely before storing in the storage bag provided.
- Remove dirt with a soft sponge and warm water. DO NOT use detergent.
- DO NOT expose to sparks, flames or other sources of ignition.

CONTENTS

Windbreak x 1

Steel poles x 5

Steel pegs x 18

Guy ropes x 9

Carry bag x 1

BEFORE USE

Choose a clear site that is flat. Remove any sharp objects from the pitching area which could be dangerous or potentially damage the fabric.

PITCHING INSTRUCTIONS

Recommended 2 person pitch.

Remove the windbreak from the carry bag and place flat on the ground with the inside fibreglass frame facing upwards:

With the windbreak still on the ground; push the centre plastic hinge in the middle of the panel to create tension and pop out:

POP UP WINDBREAK (3 PANEL) MP9573 USER GUIDE

Repeat for all 4 panels:

Pre-assemble the 5 steel poles. Push each pole through a sleeve and insert the metal spike into the top eyelet:

POP UP WINDBREAK (3 PANEL) MP9573 USER GUIDE

Pre-tie 1 long guy rope around the top spike on all 5 metal poles. Pre-tie a shorter guy rope around each metal ring on the outside of the centre hub.

With 2 people; stand the windbreak upright and manoeuvre into position.

Starting from one end; peg down each pegging loop at the base of each steel pole. Use the 2 guy ropes to hold the panel in place ensuring the windbreak is vertical:

Repeat for all 4 panels.

It is recommended each peg is fully driven into the ground at an angle of 45 degrees away from the pegging point. Tension each guy rope using the guy adjusters:

POP UP WINDBREAK (3 PANEL) MP9573 USER GUIDE

Adjust the windbreak to the desired position ensuring all poles remain vertical.
