4 GANG EXTENSION CABLE (MP3768) - USER GUIDE

SAFETY INFORMATION

- Inspect the condition of the lead & enclosure before use. Do not use if any parts are worn or damaged.
- DO NOT exceed the total stated 13A capacity of the unit as this will over load the product.
- For indoor use only. DO NOT use in wet or damp conditions.
- Keep out of the reach of children.
- Ensure the trailing cable does not pose a tripping or other hazard.
- Avoid exposure to heat or direct sunlight.

OPERATION

- The cable must be fully un-rolled before use to avoid excessive heat build up during operation.
- Plug the 16A site connector into a 230V power supply.
- The red indicator light will illuminate and the 13A sockets will be live and ready for appliances to be connected.

TECHNICAL SPECIFICATION

Cable length	10m (3 core/ 1.5mm)
Site connector	230V/ 16A
